RESPONSE TO NOTICE OF NON-COMPLIANT AMENDMENT

In response to the Non-Compliant Amendment mailed June 16, 2009, the Applicant files herewith a corrected response (see the attached “Response to Office Action, Including Amendment and Argument, And Request for Reconsideration, Under 37 CFR §1.111”) in its entirety. It is of note that the corrected amendment filed herewith has markings on the amended paragraphs, including the Abstract (identifying the changes to be made relative to the prior version), has an amended Abstract presented on a separate sheet, has a new remark that indicates why new claim 42 is patentable over the applied references, and has taken this opportunity to make an additional amendment to the specification even though it is not deemed necessary because it was made during the international phase in an Article 34 amendment (which was filed alongside the USNP filing documents in this case).

Dated this 17TH day of July, 2009.

Respectfully Submitted,
